### About the Speakers:

**Professor Gubela Mji** is the Director of the Centre for Disability and Rehabilitation Studies (CDRS) and the founder and chairperson of AfriNEAD (African Network for Evidence-to-Action on Disability). Prof Mji is an internationally respected leader in the area of indigenous knowledges and their impact on health, disability and rehabilitation.

**Dr Surona Visagie** is a senior lecturer in the CDRS as well as the driving force behind the Centre's increasing body of evidence on the needs, applications and development of assistive technologies in Africa. She manages the African Community for Assistive Technology (ACAT)

**Mr Luphiwo Mdzana** is a lecturer in medical orthotics and prosthetics at Walter Sisulu University with a special interest in appropriate technologies and community based strategies. He serves on the HPCSA board responsible for the orthotics and prosthetics professions.

**Mr Mashudu Mphohoni** is an occupational therapy lecturer at Sefako Makgatho Health Sciences University, with a wide experience base as a community leader and educator with a particular passion for inclusive education.
