### WHAT

#### Learning Outcomes:

At the end of the Programme, the participants will be able to:

- Develop their own diversity proposal for their department or faculty
- Deepen their understanding of work-related issues affecting women and turn obstacles into opportunities using appropriate strategies
- Analyse their own leadership strengths and weaknesses while developing a holistic set of leadership skills and competencies
- Strategise with the aim of recognising their strengths, and use them to solve problems in their department or faculty
- Strategically activate their female colleagues while also empowering themselves as female leaders within the university.

### WHO

The programme is aimed at women managers looking to advance within their leadership roles and expand their impact in their departments, and the greater university.

### WHY

This programme focuses on enhancing leadership capabilities through guided development and focused themes, personal learning, executive coach support, and engagement with high profile leaders.

### ASSESSMENT:

Participants will complete one formative assessment and one individual assignment.

### COURSE MATERIAL:

Participants will receive all relevant course material in hard and soft copy formats.

### REMOTE LEARNING:

#Live&Interactive

**ENABLED BY ZOOM**

USB-ED is proud to be able to offer this programme remotely. Remote Learning allows for participants to attend classes virtually and in real-time, enabling the learning journey to continue regardless of geographic location.

How the process will work
