25 – 27 February 2025

14 March 2025
(Assessment)

3 Days
(08:30 – 16:30)

STIAS,
Stellenbosch

WHAT

Learning Outcomes:

At the end of the programme participants will be able to:

- Apply generic project management philosophy, principles, and techniques that will enable them to analyse, plan, measure progress, control, and report on any project of any kind or size in any industry.
- Develop a project plan for application in a real-life situation in their own work environment that includes all the operational processes for executing a project.

WHO

The programme is aimed at staff who need to coordinate or manage projects.

WHY

The goal of this programme is to develop management skills based on internationally accepted principles of project management in the Southern African context. For that reason, several aspects of the PMBOK standards and PRINCE2® methodology are included.

ASSESSMENT:

Participants will complete one formative assessment and one individual assignment consisting of a project plan on a topic of own choice, preferably work related.

COURSE MATERIAL:

Participants will receive all course material in hard and soft copy formats.
